

Meeting Minutes (November 30, 2024)

Format: Online via Discord

Date: November 30, 2024

Duration: 9:00 pm - 9:20 pm (20 mins.)

Attendees: Jason, Kate, Gabby

I. Discussed Items

- Discussed who is presenting which slides
 - Did a rough walkthrough of demo
 - Kate finished updating the slides with diagrams
- Discussed the creation of logout button
 - Kate made a logout button so now we don't need to keep exiting the program
- Discussed what still needs to be done with dashboard
 - We scrapped the boxplots. Decided that giving the number as it was still effective and less time consuming
 - Jason is almost done with showing the bare bones of the dashboard page

II. Users Stories Selected for Current Sprint

- As a sustainable user interested in looking at data, I would like to see more data visualizations for specific environmental impact so that I can make more conscious decisions in the future.

III. Users Stories Completed for Current Sprint

- As a person who loves to shop at name brands, I would like to get an insight on a brand's sustainability practice with a brand review page so that I am aware of what brands to shop at and what brands to avoid.
- As a user, I would like the option to log out of my account so that I can protect my data and be able to let others use the application on my same device.
- As a user, I would like to know about the sustainability ratings of clothing brands and types of materials through the dashboard so I can consider my clothing habits.

IV. Users Stories Completed Overall

- As a new user, I would like to be able to add clothes via a form layout so that the information is clean and clear.
- As a user, I would like to be able to use a navigation bar so that I can easily navigate and access through each core functionalities of the application.
- As a user, I would like to be able to scroll through a page that contains a lot of information so that all the information is not cramped and hard to read.
- As a user who wants to access their own personal closet, I would like to register my own account using a user management system (login/signup) so that I can access my own information and so others can't access my account as well.
- As a user conscious about the privacy of my data, I would like my account to be secure through encryption so that no one can easily hack into my account.
- As a user who enjoys the design of applications, I would like to see an application with a set color, font, and layout theme and design so that it enhances my user experience.
- As a user, I would like a closet feature where I can add, delete, and edit my clothing information.
- As a user who wants to interact with the sustainability community, I would like a forum system where I can add, delete, and edit my forum posts.
- As a user who is conscious about sustainability, I would like to see the numbers and percentages of my carbon footprint so that I am aware of my environmental impact.
