

Meeting Minutes (November 28, 2024)

Format: Online via Discord

Date: November 28, 2024

Duration: 1:45 pm - 2:00 pm (15 mins.)

Attendees: Jason, Kate, Gabby

I. Discussed Items

- Discussed needing to logout so that we don't have to keep restarting the application to go on another account
 - Kate will make a logout button in the start page and switch the panel frame and take care of user ID issues.
- Discussed the progress for reworking the dashboard to include more visualizations
 - Got all the functions set up to create a boxplot for decomposition time, water usage, energy usage. Need to implement the boxplots.
 - Finished adding a star review for overall brand rating.
 - Still needs to add a bell curve.
- Discussed the progress for the review page
 - Gabby has finished with adding the brand descriptions
 - Final touches

II. Users Stories Selected for Current Sprint

- As a user, I would like to know about the sustainability ratings of clothing brands and types of materials through the dashboard so I can consider my clothing habits.
- As a sustainable user interested in looking at data, I would like to see more data visualizations for specific environmental impact so that I can make more conscious decisions in the future.
- As a user, I would like the option to log out of my account so that I can protect my data and be able to let others use the application on my same device.

III. Users Stories Completed for Current Sprint

- As a person who loves to shop at name brands, I would like to get an insight on a brand's sustainability practice with a brand review page so that I am aware of what brands to shop at and what brands to avoid.

IV. Users Stories Completed Overall

- As a new user, I would like to be able to add clothes via a form layout so that the information is clean and clear.
- As a user, I would like to be able to use a navigation bar so that I can easily navigate and access through each core functionalities of the application.
- As a user, I would like to be able to scroll through a page that contains a lot of information so that all the information is not cramped and hard to read.
- As a user who wants to access their own personal closet, I would like to register my own account using a user management system (login/signup) so that I can access my own information and so others can't access my account as well.
- As a user conscious about the privacy of my data, I would like my account to be secure through encryption so that no one can easily hack into my account.
- As a user who enjoys the design of applications, I would like to see an application with a set color, font, and layout theme and design so that it enhances my user experience.
- As a user, I would like a closet feature where I can add, delete, and edit my clothing information.
- As a user who wants to interact with the sustainability community, I would like a forum system where I can add, delete, and edit my forum posts.
- As a user who is conscious about sustainability, I would like to see the numbers and percentages of my carbon footprint so that I am aware of my environmental impact.
