

## Meeting Minutes (November 22, 2024)

Format: Online via Discord

Date: November 22, 2024

Duration: 11:30 pm - 12:00 am (30 mins.)

Attendees: Jason, Kate, Gabby

### I. Discussed Items

- Discussed finishing forum function
  - Kate finished integrating the sql to the forum feature
  - Discovered a bug in the “edit” feature and has to go back and fix it.
- Discussed finishing closet function
  - Kate finished integrating the sql to the closet function
  - Kate made some small changes to the design of the editClosetView for better organization of data
- Discussed integrating dashboard with closet items
  - Jason has successfully integrated the closet details into the dashboard
  - Now the dashboard reflects whatever is put into the closet.
- Discussed the Review Page
  - Gabby needs to work on starting the review page.

### II. Users Stories Selected for Current Sprint

- As a user, I would like to know about the sustainability ratings of clothing brands and types of materials through the dashboard so I can consider my clothing habits.

### III. Users Stories Completed from Current Sprint

- As a user, I would like a closet feature where I can add, delete, and edit my clothing information.
- As a user who wants to interact with the sustainability community, I would like a forum system where I can add, delete, and edit my forum posts.
- As a user who is conscious about sustainability, I would like to see the numbers and percentages of my carbon footprint so that I am aware of my environmental impact.

#### IV. Users Stories Completed Overall

- As a new user, I would like to be able to add clothes via a form layout so that the information is clean and clear.
- As a user, I would like to be able to use a navigation bar so that I can easily navigate and access through each core functionalities of the application.
- As a user, I would like to be able to scroll through a page that contains a lot of information so that all the information is not cramped and hard to read.
- As a user who wants to access their own personal closet, I would like to register my own account using a user management system (login/signup) so that I can access my own information and so others can't access my account as well.
- As a user conscious about the privacy of my data, I would like my account to be secure through encryption so that no one can easily hack into my account.
- As a user who enjoys the design of applications, I would like to see an application with a set color, font, and layout theme and design so that it enhances my user experience.
