Meeting Minutes (October 11, 2024)

Format: In-person @ VEP Hunter Design Lab
Date: October 11, 2024
Duration: 11:30am - 11:50pm (20 mins.)
Attendees: Jason, Kate, Gabby

I.   Tasks Accomplished

Kate:
- Completed Login Page and started on Signup Page
- Populated a test user in the User Table in SQL Database
- Researched and created metrics of material sustainability

Jason:
- Researched about hashing functions
- Worked on setting up the database on own local device to test and work on signup and login hashing

Gabby:
- Created a navigation bar class
- Fixed the navigation bar buttons

II.   To-Do

Kate:
- Finish Signup Page
- Redesign Login and Signup so that it fits the new screen dimensions
- Come up with Equations for Carbon Footprint Analysis
- Populate tables with material and brand information

Jason:
- Hashing the passwords to secure user information

Gabby:
- Find at least 20 brands to populate in the tables

III.   Obstacles

- The Frame size was different on Gaby's screen than it was on Kate's screen.
    - Solution: we found that the frame size was set again to a different dimension on the main class, so we chose one standard screen dimension to work with.
