Meeting Minutes (November 10, 2024)

Format: Online via Discord
Date: November 10, 2024
Duration: 3:30 pm - 4:00 pm (30 mins.)
Attendees: Jason, Kate, Gabby

I. Discussed Items

- Discussed when the interface designs for all pages should be completed so we can start working on linking code to database and make it work
  - By the end of this week (Nov. 16).
  - Gabby will restructure the closet interface design.
  - Jason will restructure the forum interface design.
- Discussed how to prepare for linking data access objects from java to SQL.
  - Kate will crunch some number to ensure a clear and accurate display of information for carbon footprint and other data

II. Users Stories Selected for Current Sprint

- As a user, I would like a closet feature where I can add, delete, and edit my clothing information.
- As a user, I would like to know about the sustainability ratings of clothing brands and types of materials through the dashboard so I can consider my clothing habits.
- As a new user, I would like to be able to add clothes via a form layout so that the information is clean and clear.
- As a user who is conscious about sustainability, I would like to see the numbers and percentages of my carbon footprint so that I am aware of my environmental impact.

III. Users Stories Completed

- As a user, I would like to be able to use a navigation bar so that I can easily navigate and access through each core functionalities of the application.
- As a user, I would like to be able to scroll through a page that contains a lot of information so that all the information is not cramped and hard to read.

- As a user who wants to access their own personal closet, I would like to register my own account using a user management system (login/signup) so that I can access my own information and so others can't access my account as well.
- As a user conscious about the privacy of my data, I would like my account to be secure through encryption so that no one can easily hack into my account.
- As a user who enjoys the design of applications, I would like to see an application with a set color, font, and layout theme and design so that it enhances my user experience.
